

Great-tasting, clean water from every faucet

Super

HydroDI processor and storage tank

The HydroDI™ Water Treatment System

A whole house system offering the benefits of a water softener and a reverse osmosis system without the use of salt or chemicals.

With HydroDI™ water treatment...

Drinking water is cleaner and tastes better

Bathrooms and fixtures are easier to clean

rior Water

Salt Free

ADVANCED

Patented hydro-deionization technology uses a small amount of electricity and ion specific membranes to remove ionic impurities from your water.

GREAT-TASTING

By not stripping out all the minerals, HydroDI delivers delicious, bottled water taste and quality at every faucet.

CONVENIENT

No lugging salt or bottled water.
Does not take up space on countertops, under sinks or in refrigerator.
No intrusive monthly deliveries.

ENVIRONMENTALLY-FRIENDLY

Nothing added to your water. No salt brine discharged into the environment.

You save water and energy with HydroDI. On average, a HydroDI system uses only 25 cents per day of electricity for a typical family of four¹ at 100% water efficiency².

¹75 gallons/person at
\$0.12/kW per hour
²With water reuse option

MONEY-SAVING

No salt or bottled water to buy. Simple installation and advanced technology for a cost-effective operation.

PEACE OF MIND

Optional AquaDash™ 24/7 remote monitoring by an outside water treatment professional ensures the system is operating properly and you are receiving clean water throughout the home.

Soaps and shampoos lather better; skin and hair are less dry

Dishes and glassware are virtually spot-free

Plumbing and appliances are protected and last longer

Remote monitoring is available 24/7 with optional AquaDash™

No other technology can match the quality, value and performance of HydroDI™

How HydroDI™ compares with other whole house systems.

Benefit	HydroDI	RO	Softener	Carbon Filter
Reduces hardness (scale)	✓	✓	✓	
Reduces total dissolved solids (TDS) / spotting	✓	✓		
Avoids use of salt and chemicals	✓			✓
Improves taste	✓	✓		✓
Conserves water	✓			✓

ADDITIONAL INFORMATION

The HydroDI system must be installed by an authorized HydroNovation dealer and properly maintained in accordance with the Homeowner's Manual. Failure to properly maintain the system may compromise performance and/or result in a failure to control water quality which may lead to the delivery of untreated water. Depending on the quality of the feed water, an optional post-treatment filter may be required to achieve optimum results; your HydroDI dealer will determine this.

There are more than 10 million water softeners installed in the U.S. today discharging over a billion pounds of salt annually.
